PROFESSIONAL AUDIO VISUAL MOUNTING SOLUTIONS

2023 VIDEO BAR PRODUCT GUIDE

UC / VIDEO CONFERENCING
VIDEO BAR & CAMERA MOUNTS

B-Tech's reputation as the go-to brand for professional AV mounting solutions is built off the back of our huge range of specialist solutions for each area of industry. Our suite of mounts for the VC/UC space is no exception and we have designed and manufactured a range of mounting plates and adaptors designed specifically to mount Video Bars, Soundbars, VC cameras and a range of other devices. These are all available from stock and can be fitted to a wide selection of B-Tech wall mounts, stands and trolleys. With options to fit the device above or below the display, end users will experience a robust, yet flexible mounting solution to suit their conferencing needs and the installation process will be smooth and hassle-free for the integrator.

Solutions available for all major brands, including:

AVer | BOSE | CISCO | Jabra GN

Lenovo | logitech | neat. | poly | Yealink

*For the most up-to-date brand listings visit B-Tech's website or contact us at **technical@btechavmounts.com***

VIDEO BAR & CAMERA MOUNTS

TYPICAL INSTALLATIONS

COLUMN MOUNTING

A video bar mounting plate can attach directly to a B-Tech column (BT8380 / BT8381*). Ideal for use on **System X** and **Designer Trolleys** and floor stands.
*Use a BT8385-RTC when mounting to a Mode-AL BT8385 column.

No additional product required - fit direct to column

POLE MOUNTING

A video bar mounting plate can be fixed to a Ø50mm Pole using a B-Tech Accessory Collar (BT7052 / BT7841*). Ideal for ceiling mounts or on pole mounted floor stands and trolleys.

*Use a BT7841 2-Piece Accessory Collar to retro fit video bar onto an existing installation

RAIL MOUNTING

A video bar mounting plate can be mounted onto a rail using an Adjustable Accessory Mounting Arm (BT8390-SA), and can be positioned above or below the screen(s).
Ideal for any **System X** or **Mode-AL** products that feature a BT8390 mounting rail.

USE BT8390-SA

FLAT SCREEN MOUNTING

A video bar mounting plate can be mounted onto compatible flat screen mount* using a BT7031 adjustable accessory mounting arm.

Use mounting arms on trolleys / stands when mounting onto a column / pole is not an option.

USE BT7031

*** Compatible Flat Screen Wall Mounts:**
BT8431 / BT8432 / BT8441 / BT8442 / BT9901 / BT9903
*** The **BT7031** mounting arm can also be used on trolleys, stands and ceiling mounts that feature any of the above flat screen mounting plates in place of a rail.*

MODE-AL MOUNTING

A video bar mounting plate can be attached to a **Mode-AL** stand using a BT8390-SA mounting arm to hook onto the rail or by using a BT8385-RTC plate to fix on to the column (BT8385).

All mounting arms can be installed to mount the video bar above or below the screen.
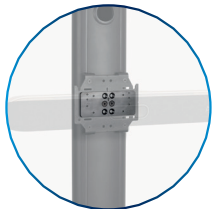

Use a **BT8385-RTC** for column mounting...

...or a **BT8390-SA** for rail mounting

AV STORAGE MOUNTING

A video bar mounting plate can mounted onto a B-Tech flat screen wall mount with slide-out / pull-down AV storage tray (BT7883 / BT7885) using an BT7034 adjustable accessory mounting arm.
AV storage trays are a convenient way of storing AV equipment behind the display and out of sight.

USE BT7034
