artnovion

At Artnovion we are driven by passion. Passion for Acoustics, passion for performance and our eternal passion is to provide an amazing customer experience. With a talented team, we work hard to push the boundaries of acoustic engineering to create a unique collection of trendsetting & high performance products. Our daily mission is to drive innovation and engineer acoustic performance, combining these to create unlimited design possibilities. We believe that simplicity is more & performance flourishes from emotion.

artnovion

Appreciate the wonder and beauty of residential architecture, where the spaces we inhabit become expressions of our inner selves.

A close-up photograph of a person's hands, wearing a grey jacket and a black watch, working on a wooden architectural model. The model is a grid of rectangular compartments, some of which are filled with a light-colored material, possibly representing a floor plan or a site plan. The person is using their fingers to adjust or place a piece of wood within the grid. In the background, there are various tools and papers on a workbench, suggesting a workshop or studio environment.

Belgium Parliament

Cutting-edge acoustic innovation
illuminates the Belgian Chamber of
Representatives

“A model of elegance and engineering excellence.”

Belgium Parliament

Engineering expertise and advanced technology delivered precise acoustics to the elegant design of the Belgium Parliament. Through meticulous engineering, Artnovion crafted an acoustically treated environment that perfectly blends with the charm of the Architecture.

Hotel Veronesi, Calzedonia Group

Atlantis Flow

“Innovation, creativity
and elegance.”

**CALZEDONIA
GROUP**

A perfect example of what can be achieved when you combine vision and talent - every detail was carefully crafted with Artnovion's cutting-edge technology to create an unforgettable experience for a new level of sophistication and acoustic comfort.

Hotel Regent, Sala Civinini

Mirage

Hotel Regent is a Luxury Hotel and Convention Center in the elegant Parioli district in northern Rome. The space's cultural heritage and architecture were enhanced with the science of Artnovion Acoustic Solutions to create a sense of harmony and balance, with great care and attention to detail.

“Seamless connection between acoustics and space.”

Tapper, Restaurant

Tapper's acoustically treated environment is a symphony of Artnovion Engineering to create a distinctive and unique space. Our team's mastery of acoustics and a keen eye for design detail ensured that the restaurant's acoustic treatment is a model of excellence and sophistication.

Helen Print

“A symphony of elegance and precision acoustics.”

Vienna Volksoper

Photography by Stefanie Waldecker

Photography by Stefanie Waldecker

Logan AE

The Vienna Volksoper is a historic theatre and opera house, a beautiful example of Viennese Art Nouveau architecture. The selection of materials was carefully considered in the acoustic treatment that perfectly matched the theatre's existing decor. The result is a distinctive acoustic environment that provides the audience with a sense of elegance, beauty and potential of sound.

“Unparalleled elegance and sound.”

Siena Panelling

“Functionality and beauty.”

Leopoldsborg Cultural Centre project highlights a deep understanding of the importance of sound in cultural spaces. With careful attention to detail, Artnovion crafted a sonic environment that perfectly balanced clarity, warmth, and resonance. The result is a distinctive acoustic experience that fully complements the centre's architectural and cultural significance. Our design blends functionality and beauty, highlighting the importance of acoustics in creating meaningful and memorable cultural experiences.

Cultuurcentrum Leopoldsburg

“Immerse yourself
in the comfort of
Beohome.”

Beohome Bang & Olufsen

“Elevate your experience.”

The Beohome by Bang & Olufsen offers an aspirational home environment, combining high-end speakers with state-of-the-art acoustic technology powered by Artnovion, every sound is crystal clear and every moment feels like a cinematic experience. Whether you're watching a movie, listening to music, or simply relaxing in your home, this space represents a symbiotic relationship between functionality, comfort and design.

Sparta

Cogworks, Home Cinema

Design by David Moseley

Verona

A revolutionary Home Cinema experience that combines acoustic engineering with elegant design. With Artnovion acoustic solutions, any room can be transformed into a home cinema, complete with a fully immersive environment that transports you into the heart of the action.

“A sleek and elegant home cinema experience.”

Studio MM

By Amptec

“Sophisticated acoustic engineering.”

A remarkable acoustic treatment for Studio MM. This project was all about fusing the precision of Artnovion acoustic engineering with the creativity of architecture, resulting in an inspiring piece of art and design where every detail was carefully considered and every element was finely tuned to create an enchanting experience for anyone who entered the space.

Avalon Flow

“The synergy of an comprehensive setup.”

B&W
Bowers & Wilkins

The Bowers & Wilkins headquarters is an exceptional space that perfectly represents the brand's commitment to quality, design, and innovation. It is a place where visitors can experience the full power of Bowers & Wilkins audio and appreciate the artistry and craftsmanship that goes into every Artnovion solution.

Lugano

Bowers & Wilkins Headquarters

Aptronics, Showroom

At the Aptronics showroom, the intersection of design and acoustic engineering creates a harmonious space where innovative and aesthetically pleasing features come together to create a unique sensory experience. The beautifully crafted Siena besides having exceptional acoustics, it also becomes a stunning piece of art. The geometric patterns make the showroom's design dynamic and perfectly complement the modern, sleek aesthetics.

Siena

“An outstanding heritage.”

Atlas

Galan

The GLAB Studios is a testament to the power of Artnovion acoustic engineering and design. It is a space that inspires creativity and elevates the art of music production to new heights. Whether you're a musician, producer, or simply a lover of great music, this mesmerizing studio is an experience not to be missed.

“Bold acoustics for creative minds.”

Hardwell, Curacao Island Studio

By Jan Morel

“A sense of sophistication and refinement.”

Hardwell

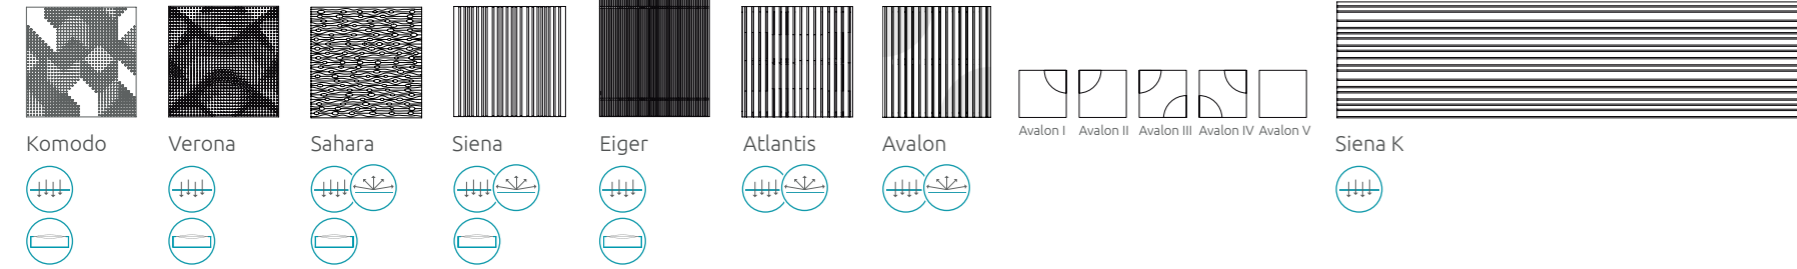

Bow

The beauty of the Jan Morel Signature Line goes beyond its technical specifications. The design in itself is a work of art, with sleek, modern lines and an avant-garde aesthetic that perfectly complements the focus on precision and excellence. Every element is meticulously crafted, from the shape and size of the room to the placement of acoustic solutions. The result is a tailored space that is optimized for exceptional sound quality, with every note and detail captured with an astonishing level of accuracy.
